# ROOF UNDERLAY

“Fibre Cement Boards are popularly used in underlay roofing application as a replacement for sloped RCC slabs. They lend a rich look and add to the aesthetic value of the buildings. They are also cost-effective, time-saving, and require no maintenance at all.”

## Advantages:

- Light weight roof
- Quick to lay
- Aesthetically superior to RCC Slab
- Economical

# MEZZANINE FLOORING

“Fibre Cement Boards is highly resistant to humidity, moisture, rot and decay. This inherent moisture resistance makes fibre cement board an excellent choice for mezzanine flooring, especially in areas prone to moisture accumulation such as warehouses, factories and basements.”

## Advantages:

- Light weight roof
- Quick to lay
- Aesthetically superior to RCC Slab
- Economical

# **TILE THAT SPEAK OF COMFORT**

**CRAFTED FOR GENERATIONS**

“Experience the perfect blend of style and comfort with our modern concrete tiles. Crafted with precision, each tile adds warmth, elegance, and timeless beauty to your home. Designed for durability and effortless maintenance, these tiles transform every space into a sophisticated and inviting environment.”
